Field Day: Coordination & Callsign

Discussion: Field Day callsign use and coordination between JPLARC, CITARC, and PasadenaRC

- Coordinate with PasadenaRC & CITARC which operates remotely
 - Callsign, official name –
 - Operate under your own call, grouped with your club
- If we want to go in person to Mt. Gleason:
 - Requirements, permits, insurance?
 - Mark Schaefer to investigate
- Jan & Ara's secret location
 - Matt to investigate
- ArtCenter space is full of stuff; we can't use it

- Discussion: NASA On-The-Air (NOTA) – Providing club support to Mike K6ICS in representing JPLARC
- QSL cards & their mailings (replies) discussion needs to happen before NOTA begins
 - QSL cards still with Rob Smith? Do we need new ones?
 - Who fills out, mails, receives?
 - QSL Bureau.com possible option?
 - Logbook Of The World – we were active in 2019, cool, not shiny
 - 50th anniversary of Apollo 16 moon landing
- Would be nice to use JPLARC station for the event!
 - Tower is up but nothing on it – Chris working on getting approval to finish this work
 - Potential outreach opportunity (recruit new members?)

CPARC

Hello JPL ARC (W6VIO),

I'm Mathew Shaham (KM6WIU) from the Cal Poly Amateur Radio Club (CPARC) and I was wondering if any members of your club could present for our club. While looking for presenters for meetings for this quarter I found a presentation from Steve (WB4ILW) about Deep Space Communications on the W6TRW website from their past presentations. I was wondering if Steve or any member from your club would be interested in presenting for our university's club. I have our meeting schedule below, and hopefully a member from your club could present for ours, as we would really appreciate it as you guys are well known and I'm sure have boundless information to provide.

Meeting 3: Thursday (April 28th) at 18:30 PST

Meeting 4: Thursday (May 12th) at 18:30 PST

Meeting 5: Thursday (May 26th) at 18:30 PST

Thanks,

Mathew Shaham
